

AUSTRIANS TURN THE RUSSIANS.

Army South of the Vistula is Forced to Retreat.

Fighting in Galicia Favors the Germanic Allies.

Reverses are Admitted in Petrograd Statement.

(BY ATLANTIC CABLE AND A. P.) VIENNA (via London) May 11.—The following official communication was issued tonight:

"In the last two days our troops have broken the Russian line near Debica, compelling strong Russian forces which had fought south of the Vistula to retreat quickly behind the lower Wislaka.

"This morning the retreat of the hostile south wing in Russian Poland was announced. The enemy evacuated the strongly-fortified Nida front, which had become untenable.

"The successes of the Austrians at Tarnow and Debica exerted influence on the Russian-Poland fighting.

"In middle Galicia our forces and the German troops repelled the remainder of the Russian corps toward the San sector and Dnyow and Sanok. Russian counter-attacks with three divisions from Sanok westward were repulsed with heavy losses to the enemy, whom we pursued. The number of prisoners and the quantity of booty taken by us increases daily.

"Strong enemy columns advancing from the wooded mountains have been repulsed near Baligród. Our advance troops have crossed the San near Dvornik. Considerable parts of the Russian army fighting between the Luptok and Uszok passes also are suffering defeat.

"In southeast Galicia the Russians in several sectors have begun an attack. An advance of strong forces north of the Pruth toward Chernowitz was repulsed to the frontier. We captured 424 prisoners.

"North of Horodinka hostile divisions succeeded in getting a footing on the southern slopes of the Dniester. Here the fighting continues."

RUSSIANS ADMIT DEFEAT.

(BY ATLANTIC CABLE AND A. P.) PETROGRAD, May 11 (via London, May 12, 1:30 a.m.).—The following official communication was issued tonight:

"After a series of successful advance-guard collisions, our troops yesterday approached Shvili, in the government of Kovens, where strong forces of the enemy, and a battle ensued. In the same region our cavalry on a wide front is pressing the enemy to the borders and has taken several prisoners.

"On the front between the Vistula and the Carpathians the enemy continues his attacks. On the evening of the 9th, in the principal sector of the fighting in the region of Strzyzow, the situation created was unfavorable for us. Nevertheless an impetuous attack by our reserves on the sector of Besko-Jarom against the enemy's right wing, which was attempting to pierce our front, stopped the German onset and arrested at its outset the development of a success for the enemy, and enabled our troops in the threatened sector to fall back quietly on positions assigned to them."

Department Commander Tuttle is Given a Rousing Welcome to the City—Pageant of the Serpentine Tonight is to Be One of the Features of the Week.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.) SAN JOSE, May 11.—At a public reception tonight in Knights of Columbus Hall, nearly 2000 G. A. R. Veterans and members of affiliated organizations, which opened State conventions here today, were given the keys to the city in a speech of welcome by Mayor F. R. Husted. The hall was packed and hundreds who wished to attend the reception were unable to get in. Congressman E. A. Hayes, seconded the Mayor's welcoming speech in an address in which he pointed out the efficacy of the Union army as a peace force and eulogized its deeds in the war of secession.

WELCOMES CHIEF.

This morning's feature was a reception at the Southern Pacific depot, where thousands welcomed Department Commander Tuttle of the G. A. R., who arrived by special train. The Appomattox boys drum and pipe corps, composed of veterans averaging seventy-four years old, met their chief and there were escorts of high school students and from other orders. Organization meetings were held by the Woman's Relief Corps, Sons of Veterans, Daughters of Veterans, Ladies Auxiliary of the Sons of Veterans, Ladies of the G. A. R., Spanish-American Veterans, and the Spanish-American War Veterans.

Belgians Report Success in Battle at Dixmude.

Germans Drive Away Ship at Port of Westende.

(BY ATLANTIC CABLE AND A. P.) PARIS, May 11.—The following official communication was issued by the French War Office tonight:

"To the north of Dixmude the Belgian troops who have succeeded in throwing up a bridge head on the right bank of the Yser, were subjected to violent attacks by three German battalions last night. The Belgians repulsed these, inflicting on the enemy heavy losses and taking about fifty prisoners. Another Belgian division has gained ground to the south of Dixmude.

"To the east of Ypres the British troops have been attacked again with the aid of asphyxiating gases. They allowed the fumes to pass over, under the protection of masks recently put into use, and by rifle and machine gun fire they annihilated at the very point of their attack the German divisions from Sanok in the direction of Besko had failed in the morning with very heavy losses for the enemy. The pursuit continues."

"Our success to the north of Arras was sensibly enlarged today during the course of the fighting, an engagement of extreme violence in front of Loos was captured, after a desperate struggle, and despite intense cannonade, an important German work and an entire system of trenches constructed along the road from Loos to Vermelles.

"Further to the south we captured by assault the big blockhouse and the chapel of Notre Dame de Lorette. This position had been ardently defended for months by the Germans. It was turned into a veritable fortress. It was surrounded and invested and was taken this afternoon by our troops.

"We have, without pause, pursued our success in pressing the enemy energetically, between the chapel of Notre Dame de Lorette and Ablain-St. Nazaire. All the German trenches to the south of the chapel have fallen successively into our hands and in them we found several hundred dead bodies.

"The Germans, debouching from Ablain-St. Nazaire, delivered a counter-attack which was immediately crushed.

"We have also taken the offensive and gained ground in the direction of the sugar refinery at Souchez. At Campion the investment of the German position has been drawn tighter by us. We have occupied several blocks of houses in the eastern part of the village and made fifty prisoners, of whom one was a German officer.

"We have continued several blocks of houses in the eastern part of the village and made fifty prisoners, of whom one was a German officer. The enemy continued an intermittent cannonade which failed on our front stretching before Dixmude, and also on the outskirts of the village. In the present series have each time suppressed the German artillery."

GERMANS TAKE MORE PRISONERS.

(BY ATLANTIC CABLE AND A. P.) BERLIN, May 11 (via London).—The German general headquarters staff gave out today the following statement:

"Yesterday morning an English ship was driven away from Westende by our fire.

"We made further progress east of Ypres and captured five machines. The French continued their attacks at the villages of Abailen and Carney. All their attacks were repulsed. The number of prisoners made by us here was increased to 800.

"Between Carney and Neuville, the French still remain in possession of the trenches taken by them. The battle continues.

"An English flying machine was shot down at a point southwest of Lille.

"In the wood south of Longville-au-Bois our troops yesterday took by storm a position of two lines of trenches situated behind each other and stretching over a width of 400 meters. We killed several German soldiers and captured a large number of prisoners and a quantity of munition.

"Enemy infantry attacks north of Filirey and in the forest of La Prette failed with considerable losses to our opponents.

"In the eastern theater yesterday the situation was unchanged. The Russians attempted to arrest the pursuit of our army units near Maden and capture of unoccupied mine throwers with much ammunition. HIGH PRAISE FOR OUR NAVY.

Admiral Fletcher the Honor Guest at Luncheon.

Washington's Peace Ideas the Theme of Speakers.

Fleet is Referred to as the Acme of Efficiency.

(BY A. P. NIGHT WIRE.) NEW YORK, May 11.—Pride in the United States navy and confidence that it called for a more sympathetic line of action as the attitude of Germany was revealed. It developed during the day that serious consideration had been given to the status of Dr. Bernhard Dernberg, former German Colonial Secretary, who has been in this country for several months past as a spokesman for the German cause.

The statements of Dr. Dernberg justifying the torpedoing of the Lusitania as an incident of war, taken in conjunction with other utterances, are understood to have met with strong disapproval in high executive quarters.

This has led to some examination of precedents to see what courses are open to the government to restrict the embarrasment which many of the officials feel has resulted from his activity. The departure of Dr. Dernberg from the United States might be a step in that direction.

The occasion was one of the many events arranged for the entertainment of the fleet during its visit to New York and was followed tonight by a reception to the officers at the New York Yacht Club.

The guests for the luncheon assembled in the historic room where George Washington parted from his officers, and Washington as the first commander-in-chief of the United States navy was in part the theme of the address.

James B. Black, former Attorney General, the principal speaker, referring to Washington, said:

"PEACE, BUT WITH HONOR. "He too, faced the problem of a world which was in flames. Himself as a man of peace, who never willingly sheathed his sword, he was unwillingly sheathed it when full justice had been done, he yet repeatedly and forcefully warned his countrymen that they must always be prepared to defend their interests and vindicate the honor of the nation. If he was the first in peace, he was always first in war. He was an ardent lover of peace, with this vital reservation: that if the choice lay between peace and dishonor and war to secure justice, he never hesitated to choose the latter."

Admiral Fletcher voiced the appreciation of the officers and men for the welcome tendered them here and discussed the training accorded to the Cadet Corps. Tonight he secluded himself again in his study, perusing it was believed, editorial opinion and messages. The belief grew many quarters that he would communicate directly with Emperor William when he came to a decision.

During the present war he has on a previous occasion written personally to Emperor Nicholas of Russia on behalf of Austrian prisoners, and to adopt this form of communication, it was suggested, would make it possible for the President to develop his message to the general cause of humanity rather than any specific case.

The fact that Mr. Wilson today said he was not referring to a letter received from Philadelphia last night especially to the Lusitania tragedy was taken in mind the broader idea of humanity. His references to the example which the United States should set other nations by remaining at peace represented, he intimated today, his personal attitude and not necessarily a fixed policy.

In today's wide range of speculation over the President's speech, from which his Philadelphia audience drew the inference that he was thinking of the Lusitania case, it was regarded as significant that some officials close to the nation's Executive were satisfied that the eventualities of the present war would be met by the utterances concerning peace.

"That address," His Eminence said, "ought to be read in ringing tones at your convention and at the meeting of every organization in America. Here is an expression of sentiment sublimely universal in tone and lofty in human sentiment, which only makes our love of America greater because it finds itself on the natural love of every human heart for justice and truth, and eliminates sectional jealousy and discord."

over, that he was by no means unprepared for or unaware of the possible eventualities of the present crisis and knew that circumstances and events over which the United States might have no control might demand vigorous action.

The circular from the German government to neutral countries, assuming responsibility and promising reparation for any danger in the war zone to neutral vessels, will not affect the determined course of the President today, but high officials later pointed out that there is no guarantee in it that the lives of Americans will be safeguarded, as submarines cannot accommodate passengers or crews of the vessels they attack.

DERNBERG'S STATUS.

A canvass of officials well informed in the situation developed that they were convinced that the President would follow a course which would be consistent with the dignity of the United States, and leave him free to adopt if necessary a more sympathetic line of action as the attitude of Germany was revealed. It developed during the day that serious consideration had been given to the status of Dr. Bernhard Dernberg, former German Colonial Secretary, who has been in this country for several months past as a spokesman for the German cause.

American Ensign Stood Out

Plainly in Breeds.

WASHINGTON, May 11.—The State

Department today made public

a sworn statement by Ralph E. Smith,

former chief officer and now master

of the American steamer Guilford,

describing the torpedoing of that

vessel May 8, off the Scilly Islands. When

torpedoed, the officer says, the

Guilford was flying the American

ensign, six by ten feet in size. He

said he saw the submarine but "could

not distinguish or see any flag flying

on her."

Officer Smith further says that

shortly before the submarine was

sighted two British patrol boats, the

Lago and Filer, took positions on

either side of the Guilford and

ordered her to follow them to the

Bishop lighthouse. "I personally

saw the flag was standing out well

to the breeze," the officer said.

MASTER SMITH'S STATEMENT.

The text of Master Smith's

statement follows:

"On the first day of May, about 11

o'clock in the forenoon, we spotted

two British patrol vessels named Lago

and Filer. We were then about twenty

miles west of the Scilly Islands.

The patrol vessels asked

where we were bound. After

forming them that we were bound

for the Bishop lighthouse, they

ordered us to follow them to the

STUDY AND EXERCISE

Study does not hurt a child unless

the study time is taken from time that

should be spent in out-of-doors exer-

cises.

Overstudy and lack of exercise

make thin, bloodless children. It is

a combination that provokes St. Vitus'

dance.

If your child is thin and pale, list-

less, inattentive, has a fickle appetite

and is unable to stand still or sit still,

you must remember that health is

even more important than education.

See to it that once that the patient

does not overstudy, gets at least two

hours out-of-door exercise every day,

sleeps ten hours out of every twenty-

four and takes a non-alcoholic tonic

like Dr. Williams' Pink Pills until the

color returns to cheeks and lips and

the appetite becomes normal.

For growing children who become

pale and thin Dr. Williams' Pink Pills

are not only safe but in the great

majority of cases they are the very best

tonic that can be taken. They build

up the blood and strengthen the

nerves and assist nature in keeping

pace with rapid growth.

The Dr. Williams' Medicine Com-

pany, Schenectady, N. Y., will send

you two boxes of Dr. Williams' Pink

Pills if you mention this paper. If

your child is very young ask for the

booklet, "The Care of the Baby." Your

own druggist sells Dr. Williams' Pink

Pills.

GOVERNMENT CANCELS CASES

AGAINST CHRISTOPHER AND

SIMMONDS.

SEATTLE, May 11.—Atty.-Gen.

Gregory has ordered dismissal of the

Federal indictments returned at Ta-

coma October 14, 1910, against Cor-

nelius Christopher and George Sim-

monds, charging them with conspiracy

to defraud the government by the use

of dummy entries in the location

of coal lands in Alaska. Cases brought

to trial at Chicago and Seattle resulted in

acquittal of the defendants, and the

government is dismissing all the in-

dictments. The claims located by the

indicted men have been restored to the

public domain or are in process of

restoration.

How Mrs. Harold Got Rid of Her

Stomach Trouble.

"I suffered with stomach trouble for

years and tried everything I heard of,

but the only relief I got in my ten

years until last spring I saw Cham-

Unwashed Proletariat Cared for in Appropriations.

(SPECIAL CORRESPONDENCE.)
PHOENIX (Ariz.) May 8.—An estimate of the total of the House appropriation bill checks up to \$1,164,225.80, most of which is charged by the prejudiced against the Hunt administration. This is for the two years beginning next July. It is to be compared with the last biennial appropriation, over which there were loud shrieks, and which aggregated only \$1,115,370. The difference is said to be due almost entirely to the policy of the administration and of the Democratic radicals to approach the ideal conditions of socialism by overhauling the taxpayers and distributing the resultant funds among the unwashed proletariat. The House is nearly through with the first consideration of its bill, which it probably will be a number of times again. The Senate bill, with which it will be compared, totals up only \$2,790,187.30, and has a few items which may be stricken out at that point. The demands upon the pork barrel have been as strong as ever, and the members have been playing the same old game of trading votes with the representatives of other sections.

LOAN SHARKS IN CONTROL.

LITTLE FOR EDUCATION.

Especially there has been argument over the educational appropriations. For the common schools have been set an appropriation limit of \$100,000,000, which is less than one-fifth of the total to go for free text-books and much of the balance to be distributed to the counties school purposes on the basis of proportionate school enrollment. There was a strong effort to cut this down to a still lower figure, but the text-book cost, but it is probable that the item will leave the House in the present shape, appropriating \$200,000.

The heavy appropriations passed for the schools of every sort have caused some degree of investigation into the costs of education in Arizona. It has been found that for the year ending June 30, 1914, the University and the Normal schools, Arizona spent \$2,115,448 on 42,426 pupils, an average of \$50.40 per capita of enrollment. This is declared to be at least \$15 above the average. The gross school census of the state, lately completed, found \$2,845,000, or an average of \$50.40 per capita of enrollment, compared with \$16,611 in 1910.

NEW CORPORATION RULE.
The State Corporation Commission has ordered that all public service corporations operating in Arizona must hereafter keep their books, records and accounts in this state. This order will be sweeping in its effect, principally striking at the Mountain States Telephone and Telegraph Company, which makes up its Arizona bills in a central office at Denver.

Two years ago or more a negro at Bonita, Graham county, has been engaged in the business of selling and distributing the "Brown Bill" in the form of an interest bill bearing the name of Senator Brown of Los Angeles. The law-abiding citizen succeeded in getting the rate for contract money raised to 12 per cent, and in that form it passed the Senate. The last night of the session it also passed the Assembly and is now the law of the state. But it is the Brown interest bill and is being played in all the Progressives papers as one of their reform measures. Lottister called it the anti-union bill and that is the name which the Progressives have adopted. Senator Brown says that it differs from the original Lottister bill in relation to building and loan societies. The bill is modeled after the Wisconsin loan law. Forty-eight States have similar laws, with the exception that most of them are more drastic. Out of respect for the loan-shark attorneys, the administration the Brown bill is probably the most inoffensive of its kind passed by any State.

The brought action from the Senate in the form of an interest bill bearing the name of Senator Brown of Los Angeles. The law-abiding citizen succeeded in getting the rate for contract money raised to 12 per cent, and in that form it passed the Senate. The last night of the session it also passed the Assembly and is now the law of the state. But it is the Brown interest bill and is being played in all the Progressives papers as one of their reform measures. Lottister called it the anti-union bill and that is the name which the Progressives have adopted. Senator Brown says that it differs from the original Lottister bill in relation to building and loan societies. The bill is modeled after the Wisconsin loan law. Forty-eight States have similar laws, with the exception that most of them are more drastic. Out of respect for the loan-shark attorneys, the administration the Brown bill is probably the most inoffensive of its kind passed by any State.WESTBOUND: From New York, 19 days to Los Angeles Harbor.

Happenings on the Pacific**THE IDEALISM IN SOCIALISM.**

Unwashed Proletariat Cared for in Appropriations.

Everything Except Education Provided by Legislature.

Another Route for the Great Desert Race Suggested.

(SPECIAL CORRESPONDENCE.)
PHOENIX (Ariz.) May 8.—An estimate of the total of the House appropriation bill checks up to \$1,164,225.80, most of which is charged by the prejudiced against the Hunt administration. This is for the two years beginning next July. It is to be compared with the last biennial appropriation, over which there were loud shrieks, and which aggregated only \$1,115,370. The difference is said to be due almost entirely to the policy of the administration and of the Democratic radicals to approach the ideal conditions of socialism by overhauling the taxpayers and distributing the resultant funds among the unwashed proletariat. The House is nearly through with the first consideration of its bill, which it probably will be a number of times again. The Senate bill, with which it will be compared, totals up only \$2,790,187.30, and has a few items which may be stricken out at that point. The demands upon the pork barrel have been as strong as ever, and the members have been playing the same old game of trading votes with the representatives of other sections.

LOAN SHARKS IN CONTROL.

LITTLE FOR EDUCATION.

Especially there has been argument over the educational appropriations. For the common schools have been set an appropriation limit of \$100,000,000, which is less than one-fifth of the total to go for free text-books and much of the balance to be distributed to the counties school purposes on the basis of proportionate school enrollment. There was a strong effort to cut this down to a still lower figure, but the text-book cost, but it is probable that the item will leave the House in the present shape, appropriating \$200,000.

The heavy appropriations passed for the schools of every sort have caused some degree of investigation into the costs of education in Arizona. It has been found that for the year ending June 30, 1914, the University and the Normal schools, Arizona spent \$2,115,448 on 42,426 pupils, an average of \$50.40 per capita of enrollment. This is declared to be at least \$15 above the average. The gross school census of the state, lately completed, found \$2,845,000, or an average of \$50.40 per capita of enrollment, compared with \$16,611 in 1910.

NEW CORPORATION RULE.
The State Corporation Commission has ordered that all public service corporations operating in Arizona must hereafter keep their books, records and accounts in this state. This order will be sweeping in its effect, principally striking at the Mountain States Telephone and Telegraph Company, which makes up its Arizona bills in a central office at Denver.

Two years ago or more a negro at Bonita, Graham county, has been engaged in the business of selling and distributing the "Brown Bill" in the form of an interest bill bearing the name of Senator Brown of Los Angeles. (BY DIRECT WIRE.—EXCLUSIVE DISPATCH.)
SAN FRANCISCO, May 11.—Two thousand men and women, comprising the grand lodges of the Odd-Fellows, met today in the city hall for the sixtieth annual communication of the Grand Lodge, I.O.O.F., of California.

During the entire convention, the issue under discussion was the peace between our Brethren across the sea.

PEACE THE THEME.
The three joint conventions, including the Grand Lodge, the Assembly and the Veterans' Convention, all will devote a portion of their sessions to the discussion of peace and the adoption of resolutions to that end.

This morning in the morning session, the Grand Lodge, I.O.O.F., of California, met at 10 o'clock in the city hall for the opening of the convention with 300 members present, at the same time, the Veterans' Convention, composed of men, gathered in the hall, and the National Child Labor Convention, composed of women, gathered in the hall.

At the session of the Grand Lodge, J. P. Johnson, Jr., president of the Grand Lodge, I.O.O.F., of California, presided. He welcomed the members and guests, and announced that the convention would be held in the city hall for the purpose of discussing the peace between our Brethren across the sea.

(BY A. P. NIGHT WIRE.)
SAN FRANCISCO, May 11.—Difficulties in the courts were discussed by the Federal Industrial Commission today by Stephen G. McKelvey, a lawyer of Chicago who de-

clared that the courts should be looked into because of the matter for any of our citizens to feel that they are not receiving justice. He discussed the case of the cotton mills, whose decisions against the courts arose from the removal of the courts from the jurisdiction in strikes.

McKelvey said that, under the law, the courts should be looked into because of the matter for any of our citizens to feel that they are not receiving justice. OBREGON BOTTLED UP BY VILLA AT IRAPUATO.

(BY A. P. NIGHT WIRE.)
WASHINGTON, May 11.—Villa representatives announced here today that the Carranza army under Gen. Obregon had been driven backward and bottled up by Gen. Villa's forces at Irapuato, and investment of that place was in progress.

Duval West, who is awaiting here an opportunity to present a full report of his recent tour of Mexico as President Wilson's personal representative, so far has revealed his conclusions only of Secretary Bryan in one brief interview.

Gen. Villa claims he has destroyed the left wing of Obregon's army in a dispatch to his agency here. The telegram says the battle was south of Mexico.

FATEFUL WORDS BY DICKINSON.

LUSITANIA CASE MAY INVOLVE
COUNTRY'S FUTURE.

Secretary of War Under Taft
Declares Possibilities are More
Menacing to the Nation than at Any
Time Since the Great Rebellion
of 1861.

(BY A. P. NIGHT WIRE.)
CHICAGO, May 11.—Jacob M. Dickinson, Secretary of War under President Taft, issued the following statement here today:

"I regard the possibilities of the destruction of American lives on the Lusitania as even more momentous to the nation than those involved in our Civil War. No question of maintaining republican institutions was then involved, because, except as the principle of secession, the Constitution of the two governments were practically the same. I have no doubt that if the South had succeeded in its rebellion, we would have set in and that long before this all the States would have been reunited under one government.

"The outcome of the present condition may involve us in a career, with which, looking to the welfare of our nation, the possibilities of the Civil War, in any event, were not comparable.

"It is not likely that Germany will disavow the purpose to destroy the Lusitania with full knowledge of the fact that this involved many American lives.

"The view of the result and the warning given by our government to Germany, some proper action must be taken, or the American government will incur the contempt of the world, and the contempt of a vast number of its own people.

"What action should be taken should not be declared in advance by those who are not officially responsible to the whole people for the grave results that may follow. It would be unwise to have the public mind committed to particular lines of action before the administration shall declare its purpose. Our judgment and utterances as to what course should be taken should not be held in suspense, so that the public, without preconceived notions, shall be able to follow the mind to consider the course the administration may adopt.

"It is especially important that a period of calmness should intervene in order that our action should not be prompted by excitement and our judgment clouded by passion.

"In the present inflamed and ferocious state of the German mind we could easily get into war.

"I have great confidence in the President and believe that he not only will sustain our national dignity, but will exhaust all peaceable means, consistent with our national dignity, before committing our country to war."

ILLINOIS SENATE
INDORSES WILSON.

(BY A. P. NIGHT WIRE.)
SPRINGFIELD, (Ill.) May 11.—A resolution assuring President Wilson that the people of Illinois will indorse whatever action he may take "for maintaining the honor and dignity of the nation" in connection with the torpedoing of the Lusitania was adopted today by the Illinois Senate.

BRITISH PRAISE
WILSON'S SPEECH.

(BY ATLANTIC CABLE AND A. P.)
LONDON, May 11.—The words "too proud to fight" cover in huge letters most of placards displayed on the streets of London today to advertise the evening papers of the city.

The text of President Wilson's speech at Philadelphia last night printed here today reached London too late for general comment as yet. The Evening Standard, however, in an editorial remark:

"President Wilson is a high-minded man and we can understand what he meant by this rather unpolitic remark. Unfortunately Germany does not understand this kind of righteousness. If America could only see the President says, convince Germany of her injustice to mankind, how dignified and useful would be her position as a neutral."

Committee of Mercy Issues Appeal to
Relieve Women and Children
Rescued from the Lusitania.

(BY A. P. NIGHT WIRE.)
NEW YORK, May 11.—The Committee of Mercy, an organization to provide relief for the women and children made destitute by the war in Europe, issued an appeal today in behalf of the Lusitania sufferers. In the announcement it is said, in part: "The Lord Mayor of Liverpool, in his cable to Acting Mayor McAnany of New York stated that, while the crew of the Lusitania were provided for by the Cunard company, a number of second and third-class passengers of the Lusitania will be destitute."

The Citizens' Committee, appointed by Mr. McAnany to raise funds in New York, it is said, is co-operating with the Committee of Mercy, which has issued a similar appeal over the rest of the United States. Former Senator Elihu Root of New York is treasurer.

Nearly Starved to Death.

(BY A. P. NIGHT WIRE.)
SEATTLE, May 11.—Six survivors of the crew of the Japanese schooner Diakio Maru, which was wrecked off Ninivah Island, Aleutian Peninsula, in January, were rescued last Monday from the island by the power schooner Polar Bear and taken to Dutch Harbor for medical treatment. The captain of the schooner was drowned at the time of the wreck. Seven men were rescued. One died later from cold and starvation. The others were rescued by the Polar Bear, which was bound for Siberia, made a landing for water and found the suffering Japanese.

EDITOR IS HELD.
J. D. McGaughey, Publisher of a
Stockton Labor Journal, Is Accused
of Criminal Libel by J. T. Woods.

(BY A. P. NIGHT WIRE.)
STOCKTON, May 11.—J. D. McGaughey, editor of the News Advocate, a labor journal published in this city, was held to answer to the Superior Court on a charge of criminal libel preferred by J. T. Woods, president of San Joaquin Building Trades Council. The editor's bail was fixed at \$2500. During the labor trouble in Stockton last year McGaughey took issue with Woods and other organized labor leaders and published an editorial criticizing Woods. The court in its decision today says "defendant must be presumed to have intended that which is the natural consequence of his act."

Further on the decision says: "In the opinion of the court there is probable cause to believe that the content was written by a malicious motive in publishing the article."

taste just as delicious and fresh as the day they came out of the orchard or garden. The Fort Company operates fine large garden farms in the fertile Mohawk and Oswego Valleys of New York. The gardens adjoin or are in close proximity to the Canning Plants so that "From Field to Can Same Day" is possible. The Fort plants are marvels of scrupulous sanitary cleanliness. The canning method is one of absolute purity—only sugar and salt is used in the processing of Fort products. The high quality of the fruits and vegetables—the care, cleanliness and conscientious satisfaction-seeking efforts employed in their preparation—the Fort brand of canned products rank very high in the world of table necessities.

TIGERS CAN'T FIND SMITH.

Gather Only Three Hits in Eight Innings.

Venice, However, Threatens to Win in Ninth.

Henley Allows Seals but One Earned Run.

BY HARRY A. WILLIAMS.

Something not to get excited about, meaning yesterday's ball game.

At least, that seems to have been the way the players felt about it, and the fans were in complete sympathy with them. The athletes went about their tool methodically, and displayed about the same degree of enthusiasm about yesterday's ball game.

Of course, we really had nothing to cheer about, as the Seals whammed the Tigers, 3 to 0. But even Cliff Ireland, who trailed the Seals all the way from San Francisco, failed to make a disturbance. And if there was anyone in the whole place had an excuse to cheer it was this lone "bug" from San Francisco.

Indications are that the public is now thinking about something more serious than baseball.

HAP SICK.

And then to make matters worse, "he" was at home toiling on a bed of influenza. Not only this, but "Charley" Smith had the rest of the Tigers looking sick. Most of them would rather have been at home with the influenza than looking him in the eye. Charley is the pitcher for the San Francisco club, and he seems to understand his business. Plainly, this was not the first time that he has pitched.

He went along fine for eight innings. He seemed to enjoy the sun, shine and air, and during that time allowed but three scattered hits. In the ninth, however, the Tigers grew stronger, and it was Mr. Smith's turn to look sick. Two solid singles in that round by Berger and Wilhoit prompted Harry Wolverton to tie the game to Smith, and it became necessary for Hester Fanning to step in and calm us. Otherwise we might have "rocked the boat." Hester wouldn't stand for any monkey business, and we went home goose-legged to a finish.

NOTHING SLOUCHY.

Cack Henley didn't pitch any slouch of a game himself, and with the aid of a support that was entitled to would have held the hated San Francisco bloopers to one run. Cack didn't even support himself properly, and therefore cannot very well raise a holler. In the first round he sent Fitzgerald from first to third with a burn baw, and then after that cut off a throw from Dick Hayles, which certainly would have nipped Fitz at the pass had it been let alone. It is not every pitcher who "knock the props from under himself." Cack was probably thinking about the fun that he will have laying brick during his vacation next week. He should not do that. There will be plenty of time to lay brick when the brick-laying season really opens. Meantime, there is real work to be done. It will be more than five months before Cack can trust dust cars aside, and get out and frolic among the hods and mortars.

NO PASSES.

He allowed seven hits, which isn't bad by any means. Neither he nor his distinguished opponent found a Such control is marvelous, and good to look at. What we need in this world is more control and less "curves." There is no sadder spectacle than a guy who can't get the ball over the plate. Let all our boys and girls who aspire to be great pitchers pattern after Cack, Charley and Hester.

POETRY OF MOTION.

This seems strange, because the Tigers figure to be right-handers. The explanation of this seeming phenomenon probably is to be found in the fact that Smith is a dead "ringer" (Continued on Second Page.)

RADER BALKS AT FARM.

Don Rader of the Tigers balks at being "famed" to Tucson in the Rio Grande League.

"I have been from one league to another until I am tired of it," said Rader. "Last season I was with the White Sox and Lincoln and finally wound up in the Union Association, which blew. No more 'fire cracker' league for me. By this time I mean leagues which are likely to go up with a bang about July 4. The Rio Grande may be all right, but I don't intend to take any chances. Unless I get on in my home company I will return to my home in Medford, O., and go to work."

Rader is a most promising player, and President Malar, who is very strong for his men, would like to retain him. But like every other magnate in the league, Malar is tied by the eighteen-player limit.

EXPOSITION MEET RECORDS ALLOWED.

(BY A. F. ROBERT WEBER.)

SAN FRANCISCO, May 11.—Two records established at the Pacific Coast conference meet at the Panama-Pacific Exposition Saturday have been allowed by the Records Committee of the Pacific Association of the Amateur Athletic Union. It was announced today.

The mark of 136 ft. 1 1/2 in. made in the discus throw by Cole of the Oregon Agricultural College, and the javelin throw of 174 ft. 1 in. by Harry Liveridge of the University of California were allowed. The shot put distance of Caughy of Stanford was not allowed because it was made on the sixth trial, while the rules allow only three extra puts in a trial for record. It was stated.

The discus record depended on the weight of the discus, which the track scales showed to be light. Official weighing proved it was six-tenths of an ounce over weight.

The javelin record depended on the weight of the javelin, which the track scales showed to be light. Official weighing proved it was six-tenths of an ounce over weight.

Anna Pavlova, the great Russian dancer, at the Rodeo.

Watching Cyclone, the devil horse, who was ridden yesterday for the first time during the Rodeo. The successful cowboy was Art Schutz.

RODEO ENDS IN FAMOUS STYLE.

Pavlova is an Enthusiastic Guest of Honor.

Many Thrilling Acts Fill Good Bill.

Cyclone is Ridden Without Much Effort.

There was enough excitement at the Rodeo yesterday afternoon to completely satisfy the most pessimistic cow fan in the world. Almost every event was featured by an accident or two and the amount of pep and energy displayed was far beyond anything of the past week. Miss Anna Pavlova was a guest of honor at the performance, and this may have accounted for the extra burst of ambition.

Pavlova had shown a decided interest in the Rodeo before coming to Southern California and insisted on attending the exhibition yesterday. She was very enthusiastic and wildly applauded the skill of the daredevil cowboys. Her enthusiasm, however, was entirely different from that of the average spectator. Most people took in the exciting points, the dangerous maneuvers and the hair-raising stunts, but not so Pavlova.

INTERESTED.

She was far more interested in the way a rider jumped on a horse than in the rest of the race. The skill and lightness of the trick horsemen drew her attention from the excitement and kick of the chuck wagon race.

She seemed to see things from the standpoint of her profession and raved about certain things which probably never entered the heads of the rest of the audience.

The cowboy pony race started the real fireworks. Seven fair contestants had entered the contest and the whole bunch tore around that course side by side. The lap was so close that it looked like one horse chasing around most of the time. The way the steeds bucked up made one feel that they were uniting against a common enemy of some kind or other. They all hit the tape at once and the judges drew straws to find out who was the true winner. The results of the draw were: Winnie Brown, first; Vera McGinnis, second; and Ross Olson, third.

PONY EXPRESS.

The pony express was a wild thing. In this event the rider doesn't wait to climb in the saddle but grabs hold of the first thing in sight and trusts to luck in getting on. Sometimes he hits the right spot and quite frequently the spot is not there when he goes to hit it. In this case he runs the horse out of breath and tries again. Jay Stanley happened to be one of the goats yesterday and he found himself trying to keep up with a swiftly-galloping mount. He had a firm grip on the pommel, but that was as far as he went. He hated to let go and he knew very well that hanging on was no impossibility. When his mind was finally made up he was going about fifty miles an hour and the spell was painful. Even at that he took second place. Dick Parker came in for first honors.

CYCLONE RIDDEN.

The bucking contest turned out to be a howling success from the cowboys' point of view. Not one of the terrors could get rid of the rider, and the list includes Cyclone. This world-famous outlaw ambled out on the field in an aimless way and then, without the least effort by Mr. Schutz, Earl Simpson had a close shave when his horse, Gavito, fell on top of him. He climbed out of the wreck, however, and appeared to be as good as ever.

Wink Marks was the only person seriously hurt. This young lady fell from her pony at the start of the cowboy relay race and it is feared that she wrenched her spine. At any event she took a hard spill. Hazel Hone, corral first place in this affair: Winnie Brown was second, Vera McGinnis third.

STANLEY BOYS.

The cowboy standing race went to the Stanley boys. There was a great deal of discussion as to the decision of the judges on this event and finally a good old-fashioned rough-house fight was started. The hopes of the audience ran high, but were rudely dashed when someone stepped in and busted up the engagement.

There was one very disastrous head-on collision. Two horses in the cowboy relay race bumped into each other, and as they were going like good bells, designing their possessors as champions of the Southwest, will be awarded the scars.

Several hundred dollars in cash prizes will also be given out to the winning men. In the cattle-separating final trophy blue ribbon as champion cow horse will be awarded the horse on which the championship is won. The cash awards will be divided as follows: First \$100 and 50 per cent. of entrance fees; second, \$50 and 50 per cent. of entrance fees; third, \$25 and 50 per cent. of entrance fees.

CONCLUDING.

The concluding programme of the 1915 Rodeo, to be run off at the stadium this afternoon, will be characterized by finals in eight of the twenty-two daily events. These finals will be the pony express race, bucking contest, cowboy relay race, steer-roping contest, stage coach race, cattle-separating contest, chuck wagon race and the cowboy relay race.

Gold belts, designating their possessors as champions of the Southwest, will be awarded the winners. Several hundred dollars in cash prizes will also be given out to the winning men. Gold belts, designating their possessors as champions of the Southwest, will be awarded the winners. Several hundred dollars in cash prizes will also be given out to the winning men. In the cattle-separating final trophy blue ribbon as champion cow horse will be awarded the horse on which the championship is won. The cash awards will be divided as follows: First \$100 and 50 per cent. of entrance fees; second, \$50 and 50 per cent. of entrance fees; third, \$25 and 50 per cent. of entrance fees.

CONCLUDING.

The concluding programme of the 1915 Rodeo, to be run off at the stadium this afternoon, will be characterized by finals in eight of the twenty-two daily events. These finals will be the pony express race, bucking contest, cowboy relay race, steer-roping contest, stage coach race, cattle-separating contest, chuck wagon race and the cowboy relay race.

WOMEN GOLFERS SPEND DAY ON MUNICIPAL LINKS.

Helen Says Griffith Park is Nicest Golf Club in Town. Many Prominent Fair Players Go Over Course and Eat Lunch Under the Oaks While Chaplin Capers. Novices at Home.

JOYING those links to the full. NOVICES.

One of the real charms of the city golf course is that if you happen to be a pitiful novice there is no one to shame you with a superior smile. Pitiful novices are regarded as persons to receive every amiable encouragement out there; it is comfortably understood that we can't all shine forth as stars, anyway for a year or two, and that everybody had to begin once.

And if you don't know all the rules of the game and make some glaring mistakes you are in no danger of being reported to the Green Committee or of being suspected of vicious propensities. There is one hole devoted to practice, too, where one can wallow in an orgy of fooling

MINORS HOLD NO TERRORS FOR PLAYERS.

Many Athletes are Better Off in Coast League than in the Majors — Draw Good Money and Enjoy Every Attention — Stroud Doing Wonderful Work. Failure of Rodgers is Mystery.

BY HARRY A. WILLIAMS.

Any other kind of a chance. In fact, it took all the life out of his playing. The players in the big minors are better off today than were the men in the majors a decade ago—and that's no dream.

The Aldermen of a large eastern city have given baseball official recognition as a science, while a Cleveland minister, weary of boosting a tail-end team, has pulled his freight and moved to Chicago. He figures that he may have a chance to pull for a contender in dear old Chi. As Chicago has three teams, the odds ought to be in favor of the minister.

Thus, baseball seems to be a fair way to become a factor in the educational and religious life of the nation, and in that way attain heights of which its founders little dreamed.

All that remains is for some athletic boy to stand up on his hind legs and declare baseball an art. When the game completes this triumph we may reasonably expect to see the names of McGraw, Paderewski, Hap Hogan and Rembrandt housed in the same hall of fame. While the question of which of the Wagners, Wilhelm Richard, the composer, or Hans Wilhelm, the painter, is the greater, doubtless will shake many of our culture clubs to their very foundations.

And, with baseball declared a science, there is every reason to believe that the names of Ery Higginsbotham, Dutch Klavitter and Rhine Hitt will go down through history linked with those of Archimedes, Darwin, Tesla, Edison and others who have made an unqualified success as scientists.

These are all encouraging signs, and in a short time we may expect to see a Cal. League appointed to the chair of baseball at Berkeley.

But there is a darker side to the discussion. Suppose all the ministers take it into their heads to beat it to some city which has a pennant winner. St. Louis would be utterly without the gospel, and Brooklyn would be left to sit in darkness, while we shuddered to think of poor, benighted Oakland.

Sailor Stroud. Sailor Stroud yesterday further qualified as a major league pitcher. He was hooked, it is true, but he was subjugated by Rube Benton, 2 to 1, in an eleven-inning fray in no disgrace. An account of that kind simply shows class on both sides.

It was only last week that Stroud pitched a wonderful game and beat the great Alexander. Early in the season it was rumored that McGraw would farm Stroud to Rochester. Naturally, this tended to puzzle people out this way. The way Stroud pitched around the Coast League last season he figured to win in any major league, barring accidents or ill health.

Like Pop Young, Stroud is from the Wolverton school. Wolverton practically started him on his pitching career. When Wolverton took the management of the Sacramento club in 1912, he knew better than any other manager in the country the Sailor's latent possibilities, and he little difficulty in purchasing him from Buffalo. The only thing against Stroud was his lack of weight. Wolverton put him through a course that added the desired avoirdupois, and the Sailor was almost unbeatable last season until the club became practically homeless and went to pieces.

Rodgers' Failure. In analyzing the work of players drafted from the Coast League, the writer last winter named Stroud, Young, Bancroft and Rodgers as the ones most likely to measure up to major league standards and stay on the job. Rodgers is to be shipped back to Portland. Just why is more or less of an enigma out this way. It is only a short time since eastern papers were lauding his work. Possibly he couldn't stand the big time pace. Again, he may be one of those players who look like a major leaguer while playing in the minors, but fade when they get there. He certainly looked the goods out here.

Bancroft easily is the sensation of the National League, while Stroud has pitched some wonderful ball. Detroit is very sweet on Young.

Rodgers is the second on McCredie's famous 1914 infield to fall in fast company. Kores was shunted to the International League following the regular spring tryout.

FISHERMEN TO TEST RULING.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH)

SAN BERNARDINO, May 11.—To make a test case as to the standing of the closing order, 180 fishermen of Colton and San Bernardino will on Sunday go to Little Bear Valley and cast their hooks into the water. The county has refused Manager Smith of the Arrowhead company deputies to enforce the order and the only method of procedure that Smith has against the fishermen is through damage suits.

CALIFORNIA CANNOT BREAK WITH STANFORD.

Big Eastern Game Impossible on Account of Faculty Rules in Force at Harvard and Yale — Stanford Holds Fast to Rugby — Colleges to Get Together in Short Time.

BY AL G. WADDELL.

THE Stanford-California wrangle over the more or less valuable services of freshman athletes is lulling under a white flag surmounted by a canary bird; but the astronomical movements point toward a hatchet ceremony within the next few days. California and Stanford cannot afford to break off athletic relations for financial reasons, mostly.

During the lull in the fighting the intercollegiate diplomats have been gambling through lengthy peace conferences and local Stanford and California alumni claim that the treaty will be signed shortly. The terms of the peace agreement are not known, but it is claimed that concessions have been made on both sides during the conference.

While American football has quite a large following at California, the boosters of the sport make up but a small percentage of the student body. It is claimed. The majority of the Californians are for patching up and meeting Stanford. Meeting Stanford means Rugby, as the Cardinal forces are fighting as hard for the English game as they are for their freshmen.

At Stanford it is all Rugby. The movement started to reinstate American football has fallen flat and it is believed that one man was responsible for the agitation, and a hush learner at that, as he did not make himself known for fear of being communicated, or something like that.

STARS ABSENT.

The fact that none of the athletes have joined the opposition at Stanford, and the leaders in the university activities have not given Rugby a shade leads to the belief that the American football boom was a small bubble. Stanford has a few trumps in stock and has little fear of California's breakaway. Stanford students and alumni hold that California is afraid to play her full hand and break clean on account of the heavy debt hanging over the new Berkeley athletic field.

That touted game with one of the big eastern variety eleven, say Yale or Harvard, suffered in the bud. A sporting-blooded Harvard alumnus came forward with an offer to finance a California-Harvard game near fall to the amount of \$25,000, and it sounded like the line peddled by advance agents for gold brick factories; but it was just about as practical as Corp. Richmond's proposed naval maneuvers in the Los Angeles River.

HOME RULE. The picketers representing fair Harvard cannot get away. There is an ordinance in the Harvard code which refuses to grant sanctions for the football team to be away from the campus over night.

AUTO RACE AT REDONDO BEACH.

(SPECIAL CORRESPONDENCE)

REDONDO BEACH, May 11.—Subject to the endorsement of the Chamber of Commerce, the Pacific Racing Association, of which Eyre Powell is president, was granted permission last night by the Board of Trustees to hold an auto race here on Saturday, May 23. This association, said Mr. Palmer, a representative of the organization, will guarantee to police the racing course much better than was the case at the road races held here in February by the same cortege of racing promoters. The board also required that the association put up a bond of \$200 to guarantee that all property owners whose property is damaged in any way will be reimbursed.

Upon being asked for his opinion of the legal status of the proposed race, in case of any accident, City Attorney Perry said that the only way the city could be protected would be for the association to put up a bond of at least \$10,000. Others speaking for the race, said that such a bond would make the holding of the race impossible. The matter was then dropped. Mr. Palmer assuming the city officials that the proposed race would bring the city considerable publicity.

Mr. Palmer assured the board that the Pacific Racing Association has adopted most of the salient rules of the A.A.A., and that the race would be held under as strict policing and regulations as an A.A.A. race. Permission was given the racing promoters to go ahead in case they put up the required bond and obtain the endorsement of the Chamber of Commerce. The course will be the same as that used in the February race.

The game between Evans and Steele in the Helms and third postcard tournament last evening, and the former was in eighty-five innings, on totals of fifty to forty. Darling played fifty, as scratch man, allowing his opponent five points.

Montana played fifty to Woodward's forty this evening.

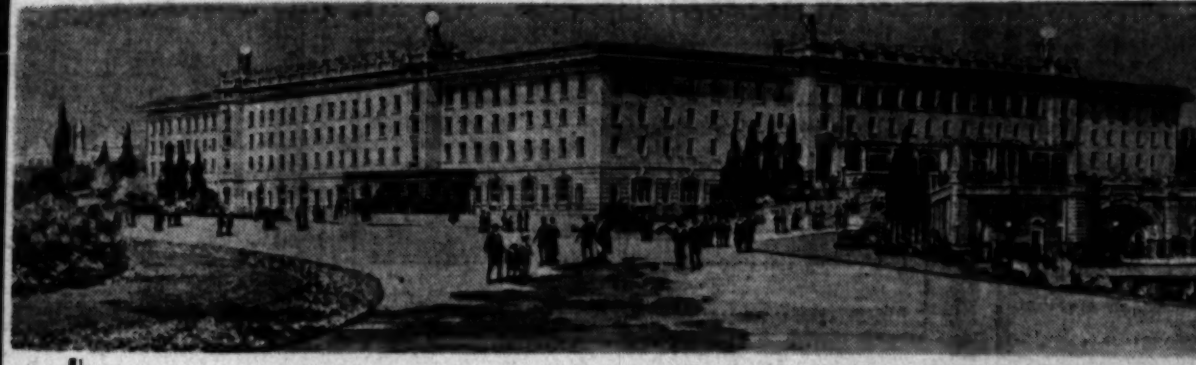

Tonight Rosen is to meet Shock.

MOROSCO GETS THE MOROSCO.

Local Theater Again Under Former Management.

Mizzi Hajos in "Sari" to be First Feature.

Side Lights on Happenings in Film and Staged.

BY GRACE KINGSLEY.

A big surprise was sprung yesterday on the Rialto when it was announced that Manager Oliver Morosco's office had taken over the management of the theater and will book big road attractions there.

Mizzi Hajos, who has won fame on the Great White Way since she captivated us here in "The Spring Maid," will open the local theater under Mr. Morosco's management in "Sari," this season's success, May 30.

Mr. Morosco promises other pleasing attractions in the near future.

Star Dust. Thomas H. Ince is certainly putting little Inceville on the theatrical map. He has just engaged a whole galaxy of stars for his big productions. Billie Burke is considering an offer to appear in a big feature, and among the noted names already signed up are Julia Dean, Jane Grey, Willard Mack, Frank Keenan and Forrest Winant. Truly Shattuck will also be featured.

Dusty in New One. Dustin Farnum is about to start work on a big feature entitled, "The Iron Strain."

Wants to Get Up. Director Ince refuses to consider himself ill, even if the doctors are sure and insist on his remaining in bed.

Never mind the mountain came to Mahomet. In other words, when "The Reward" was to be sent East Mr. Ince had a projecting machine installed in his bedroom and he viewed the film and directed its cutting.

Pavlova at Rodeo. Pavlova attended the Rodeo yesterday, and a small boy at his first circus ever got most of such. She went quite wild over the horses and riding, and wanted to get a glossy black steed on the spot. Her gallant rider, a Universal cowboy, insisted, however, that he be thrown in with the bargain, so she finally gave it up.

Pavlova's voice is withheld from the public usually, but yesterday its sweetest tones filled the air as she cried "Bravo! Bravo!" at the events she witnessed the most.

Also she bought peanuts from a small boy, who, when he found out who she was, came back and begged a peanut to remember her by.

Home Sweet Home. Never is Pavlova's smile so sweet as when she speaks of her home in Hamstead Heath. She says she is paying her quick words by birdlike movements which are full of grace. "It is a great big place," she says, "with, oh, so many windows for letting in the sunshine. It is not to live for show there, it is to live for life, you understand."

"A garden? Oh, yes, a very big one, with all sorts of flowers. I dig the flowers, and work with them, make them bloom all summer, and get myself dirty like a pig, yes. And she laughed and clapped her hands. "I own birds, too, and they sing for me, but I like best the wild birds. "And never am I at home in summertime but I think of many plans for dance and costumes. One dance I do is from watching the hovering of a butterfly, another a hummingbird. And their colors suggest dance. "I have many friends lost in the war, yes; and often when I must dance I am sad. Tonight I have a letter from a dear friend in London; her husband is just killed in the war. He, too, was my friend. But one must think of the people out in front, so that you not make them sad, too, is it not so?"

Pavlova has given most generously to the war relief funds.

Will Brave War. Miss Pavlova is going to try bravely to complete her trip around the world despite the war. She will go to the Hawaiian Islands and Australia from here, and then hope to go on to the Orient, which she has never visited.

"I believe the Orient will give me many ideas for new dances," she says, "especially the Hindoo and Japanese."

Not Prop Grace. Speaking of grace, Pavlova's is not mere "prop" grace. If she merely waxes you to a chair, she does it with a \$10,000 gesture, and as for her hall and good-by gestures, they're worth an admission fee.

Ins, Too. Lovely Ina Claire, who has been appearing in pictures for the Laskey company, was one of the notables who occupied a box at the Mason on Monday night. She was accompanied by her mother.

Miss Claire and Pavlova are great friends, and are to go together some day this week—that is, Ina drinks egg-choralates, but the fair Russian insists on the samovar for herself.

Would See Films. Pavlova is planning a trip to the motion picture studios for some afternoon this week.

Demon and Pythias. Maud Allen is a dear friend of Pavlova's, and the two are to enjoy some pleasant motor trips together. "Miss Allen has a room in my London house that's her own whenever she cares to use it," said the vivacious danseuse yesterday.

Brady's Film Company. Robert Warwick, the well-known classic actor, is in the city organizing a big new film corporation to maintain eleven or twelve companies, to put on the William A. Brady productions.

Negotiations are under way to secure a studio. It is likely the Selig plant at Edendale may be secured. The old Cinesat studio is also being considered.

Some of the Brady stars will be brought West to appear in the productions, among them Tom Wise, the well-known comedian. Frank Shaw, who has had experience with the Biograph and Vita-

Thomas H. Ince.

Director-general New York Motion Picture Corporation, viewing "The Reward" while convalescing from his recent injuries at his home. In order that the "big boss" of Inceville might view this important film before it went to New York, a special projecting machine was purchased and set up in the Ince home.

graph and other companies, has been chosen one of the directors.

Sells Hero. W. N. Selig is in the city, and is making preparations to open his East Side plant to the public.

Will Stage Manager. Frank Reicher, well-known character actor, who made a hit recently in Belasco's "Marie Odile," will arrive this afternoon to take the position of director with the Laskey company.

Concerning Frohman. George Pearce of the Reliance speaks in most affectionate terms of the departed Charles Frohman, who died in the recent Lusitania tragedy. Mr. Pearce belonged to the Frohman company in the palmy days of Viola Allen and William Faversham.

Al Good Spider. Al Jennings is drawing big houses to the Superba, where the film pictures his life is being shown, and his talk is well worth listening to.

Brain Throb. It is rumored that Granville Barker may come out this summer to produce some of his successes at the Little Theater. The Drama League is back of the movement.

Great Bard Outdoors. The Drama League is considering putting on Shakespeare's "A Midsummer Night's Dream" as an open-air production, this summer.

Lillian Stars. Mary O'Connor's "Reaping the Whirlwind" is being put on at the Reliance, starring Lillian Gish and Whitford Lucas.

Hona Fide Japs. "The Fox Woman," a Japanese play, is being staged at the Reliance, a company of real Japanese actors.

"I never heard Mr. Frohman speak an unkind word to anybody in my life," said Mr. Pearce. "He was a great inspiration, and the company was always glad when he attended rehearsals. Not that he ever said much. He seemed rather incapable of expressing himself in language, but he always conveyed his meaning by some subtle means, and many an actor has been helped by his almost wordless suggestions. He was so kind-hearted about salaries that I never knew an actor who asked for a raise to be turned down."

Frohman Memorial. Charles Marriott of the Morosco-Bosworth will figure prominently at the memorial services to be held for the late Charles Frohman at the Gamut Club by Frohman veteran actors now resident in Los Angeles. Mr. Marriott supported Ethel Barrymore, Rose Coghlan and other noted Frohman stars.

AMATEUR BOXERS START TRAINING FOR BOUT.

WITH De Witt Van Court and Al Geyer, two men rated among the most experienced in ring matters in Los Angeles helping them in their work-outs, three national boxing champions and several Southern California title holders held a workout in the Los Angeles Athletic Club gymnasium this afternoon.

The idea was preparing for the all-star special bout to be held in the club gymnasium Friday evening. The work-outs were good. All of them are in shape after their hard battles at the exposition.

Frank Crowley and Bob Mockenhaupt, two of the St. Joseph Club boxers, who will meet national champions, are working out in their own clubrooms.

ROOT. Howard Root, the 185-pound champion, showed clever footwork and proved his claim of being a first boxer. Root is to meet Tommy Richards, who is now in San Francisco. He was yesterday with De Witt Van Court, but remained at the ferry too long writing postal cards and was too late to catch the train.

Charles Askins' work-out was an exceptionally stiff one. He is of the Ad Wolpert type and likes plenty of work. He is to meet Bobby Mockenhaupt, a fairly clever boxer. Askins is the welterweight champion.

The contest between Frank Gorman and Willie Hunnifield is the outcome of that match.

CROWLEY. Mike Crowley has returned from San Francisco and is working out. Frank Crowley, the welterweight champion, is in the city. Crowley is waiting for a match with a couple of days, after which he will return to his home in the city.

AMATEUR BOXERS START TRAINING FOR BOUT.

WITH De Witt Van Court and Al Geyer, two men rated among the most experienced in ring matters in Los Angeles helping them in their work-outs, three national boxing champions and several Southern California title holders held a workout in the Los Angeles Athletic Club gymnasium this afternoon.

The idea was preparing for the all-star special bout to be held in the club gymnasium Friday evening. The work-outs were good. All of them are in shape after their hard battles at the exposition.

Frank Crowley and Bob Mockenhaupt, two of the St. Joseph Club boxers, who will meet national champions, are working out in their own clubrooms.

ROOT. Howard Root, the 185-pound champion, showed clever footwork and proved his claim of being a first boxer. Root is to meet Tommy Richards, who is now in San Francisco. He was yesterday with De Witt Van Court, but remained at the ferry too long writing postal cards and was too late to catch the train.

Charles Askins' work-out was an exceptionally stiff one. He is of the Ad Wolpert type and likes plenty of work. He is to meet Bobby Mockenhaupt, a fairly clever boxer. Askins is the welterweight champion.

The contest between Frank Gorman and Willie Hunnifield is the outcome of that match.

CROWLEY. Mike Crowley has returned from San Francisco and is working out. Frank Crowley, the welterweight champion, is in the city. Crowley is waiting for a match with a couple of days, after which he will return to his home in the city.

Buller made an exhaustive study of the sidewalks and the situation is as follows:

In constructing the sidewalks and new lines of street car tracks, the city has except for a distance of fifteen feet in the immediate main entrance, and the sidewalks are about fifteen feet wide.

It is a private company operating of twenty taxicabs and a number of white cars in the room in the street while employment. In addition to the probable increase of independent taxicabs he also find space in the street for the night or less hotel business for. So much for the sidewalks.

There are some twenty express which have stood on the corner in the vicinity of the station and now occupy the western street avenue north of Fifth street. The present condition of it is such that the road is very close to the curb, which makes it impossible with traffic on Center street to see clearly across the road to pass between those to the curb and the street.

Recollection that the South-Central Company agreed to donate the sidewalk to the city for the length of their proposition of the vacation of the Fifth street station. A portion of the station now course the building has
